(Shrimad Bhagwat Geeta, Adhyay 2)

Respected parents and dear students,

Samatva Academy of Science is a noble effort to further enrich the education sector of Bhavnagar. The institute is currently preparing students for national and state-level examinations such as JEE (Main + Advanced), NEET, Gujarat Board Examination, and Guj-CET, mainly for science stream. To prepare these exams, the students should get teachers with the right ability and proper arrangements of reading and doubt solving sessions and students should also get the model paper's and study materials Which is needed to success in these exams. That is our vision that's why we establish the Samatva Academy. We get remarkable result in 2022-23 that is a testimony to the success of our efforts.

'By the teachers, for the students'
विद्यार्थी देवो लवः

These principles are at the core of our entire education system. Here, All the system is organized in the institute is Student Centric . All the administrators of the institution are teachers, special care has been taken to ensure that there is no compromise with the basic principles of education from the time the institution was created until date. The building of the institution, the study schedule, the food—all these arrangements are Student Centric. All the systems that can achieve the desired goal are available here for the student , who get admission with a dream. All the thing which can distract the student are removed so that they can concentrate on very few thing which are essential for the realisation of the Goal. Teacher is constantly work with the student to solve his questions and guide him. It is our constant endeavour to ensure that their queries and doubts are heard systematically and resolved promptly, and that the students can achieve their goals very easily, without any stress. Nation-building through individual development is the ultimate goal of the institution. Welcome to Samatva Academy of Sciences, an institution committed to providing the best career for your child. Thanks

Team SAMATVA

Harsh Bhatt
H.O.D. NEET Program

Dear Parents and Students,

Dear Parents and Students, Today's student is aware of his career even before appearing in the class-10 examination. Students will have to choose between the A-group and the B-group. The main subjects of B-Group students are biology, physics, and chemistry. When a student enrolls at the Samatva Academy of Science, their two-year pre-planned curriculum is mainly prepared in two ways. NEET (National Eligibility cum Entrance Test) and Guj-Board + Guj-CET. Based on the merits of the board and the GUJCET exam, a student can get a bachelor's degree in pure science, pharmacy, agriculture, and biotechnology. NEET is a national-level exam that is given by approximately 15 to 20 lakh students every year from all over India. The exam is worth 720 marks and consists of 50 questions (MCQs) in each subject in physics, chemistry, botany, and zoology, out of which 45 have to be answered. Each question carries four marks. On the basis of their merit, students can make a career in the medical and paramedical fields (MBBS, BDS, BHMS, and BAMS). When a student is preparing for this type of national competitive exam, it is necessary to develop a competitive attitude. For this, the schedule of B-group students is arranged in the same manner. These include regular arrangements for lectures, reading, doubt-solving sessions, daily tests, mock tests, and counseling, complete exam-oriented preparation, accurate NEET-based test papers, in-time doubt solutions, and personal guidance. That's why we have already achieved the first category rank in the Gujarat state merit list and national AICR: 74, AIR-365, Gujarat Category Merit Rank with 697 marks out of 720 in the first batch. This is a unique achievement in the history of education. I am sure that the student who takes admission at Samatva Academy of Science with full faith and confidence can definitely achieve high success.

After getting a mass promotion in class 10, there was confusion in my mind about getting admission in science. But after getting information about Samatva Academy, I got a chance to admission there. The teaching style of the team of teachers at the academy during the two years and their attitude towards the students helped me achieve the goal. The main skill is the equivalency of the team that is preparing the student for the national-level examination. Today I am thankful to the entire Samatva Academy team that I could get admission to the college of my dreams (AIIMS Jodhpur) to make my M.B.B.S. career.

I am grateful to the Samatva Academy of Sciences for raising me to the level of incredible success. As a farmer's son. I want to give one message to the students of NEET today. (i) complete trust in teachers (ii) concentration in studies (iii) restraint in oneself. These three Gurumantras have been given to me by the entire team of the Samatva Academy of Sciences. That's why I am able to fulfill my dream today.

NEET Score : 650/720, 99.6424500%tile
All India Rank : 7282
All India Category Rank : 3682

During the two years, all the faculty at Samatva supported me in every step. The quality of each test paper, its complete solution, and doubts after the test were handled by the main faculty. Even in full-day and night reading, the main faculty is always present when needed. That's why I have achieved this success today. It is not an exaggeration to say that the whole atmosphere of Samatva Academy has been a major contributor to my goal.

H.O.D. JEE Program

Dear Parents and Students,

11th–12th science is the most important year in a student's life. It is equally important for A-group students to get results with good marks, percentiles, and ranks in the JEE Main and JEE Advanced exams. A good result in JEE (Main + Advanced) and getting admission in the best IITs, NITs, or IIITs of India is the dream of a student. The team at Samatva is always striving to realize this dream of the students. With the help of all the study materials provided by our institute, quality test papers in the form of mock exams, and the support of teachers, students are performing well in the national-level exams. Which you can also see in the results of Samatva so far. The entire system of Samatva is working in such a way that the students do not deviate from their goal even a little during the entire two years, get the best result at the end of the two years, and make a great career. As you know, JEE Main and JEE Advanced are computer-based exams. Taking care of that, the institute provides an environment where each of our students can use the computer very easily and can give the online test easily. On behalf of the entire Samatva family, I welcome all the students who wish to join our institution in the A-Group in 11th Science.

Jils Bhalani

Computer Engineering

I am proud that I did my 11-12th science from Samatva Academy of Science, All teachers are very well experienced and they are student friendly. Management is also very good. It offers very good facility of late night reading. Which no other institute offers. Here every student is given personal attention so that student can get his best result. Academy provides such an environment and guidance to the student so that they can see their life goals along with his studies.

Teachers and Staff are very supportive and they are always ready to give time to their students. The teachers and Staff were like a family to me for that 2 years and we were provided guidance time to time personally. I have seen many institute leave their students on their own after JEE Main first attempt but we were as regular as before till the final JEE Advanced examination.

I embarked on my journey for JEE Main and JEE Advanced at Samatva Academy of Science. The preparation was meticulously planned and structured from the outset, with the faculty providing a comprehensive schedule that included weekly tests, daily doubt support, and regular meetings to discuss our performance in mock tests. The unwavering support and motivation from all the faculty members created a conducive learning environment. All thanks to the guidance and support of the dedicated faculties of Samatva Academy of Science.

Harita-rathod

First of all, when I decided to make my child Dhruv enter the science stream, I visited all the reputed science schools in Bhavnagar, and then, with the sympathy and trust that I got from the director of Samatva Academy of Science, Shri Chetanbhai Tank, I took my son's admission here. Given his experience with the institution over these two years, Mark had direct discussions with the guardians. Parent meetings were conducted on a regular basis. Night reading at school for those who can't read at home, the regular counseling of the child, and the atmosphere of the school was very calm and beautiful. All the teachers are Caring about my Child and other Students Also . Today, with 590 marks, Dhruv is studying in the G. M. E. R. S. Sola Civil MBBS. A big thank you to all the faculties and staff. **Chauhan Raysangbhai S.**

My son Rudra Vyas has completed his studies at the Samatva Academy of Science, and his experience is as follows: The staff of the institution is very good; the teachers teach and take care of all the children like their own children and also show great interest in the children. Along with not letting the child get depressed or disappointed, no institution provides study till late in the night, whereas in Samatva, by the arrangement of night reading, the child used to study till late in the night. Even during the exam, Chetan sir himself came home and gave courage to my son, so my son got good marks. Samatva Academy is a home-based, family-like institution where studying is also a privilege. **Ashish K. Vyas**

I am Bhadresh Dave, the Proud parent of Om Dave, a former student of Samatva Academy of Science. I firmly believe that this remarkable accomplishment would not have been possible without the solid foundation and exceptional education that Om received during his time at Academy. The dedicated and highly skilled teachers, along with the comprehensive curriculum, have nurtured his intellectual growth. I am delighted to inform that his outstanding performance has led to his admission into prestigious government medical college in Vadodara. which is known for its excellence in medical education. **Bhadresh Dave, Kundanben Dave**

In Samatva Academy of Science, the focus is not only on the scholar student but on every student. Since there is a digital board in the class room, there is quick revision through the board work of the lecture. The faculties themselves solve the doubts so that there are no misunderstandings. The main faculty is also present during the night reading. So that all the doubt is then solved. When there is a three-four-month period of NEET, a test series is organized. It covers the entire syllabus. Every Monday, the paper of the NEET taken on Sunday is solved, which is very useful. Because of this, my son is studying MBBS at Bhavnagar Government Medical College. **Kantariya Kishorbhai**

Samatva Acedmy of Science is the best place for 11-12th Science education, NEET, JEE Exams. Here students are given best guidance by expert teachers. They are given personal attention which helps them to solve their doubts easily. Honestly a best place to secure a child's future. Yash Dhamecha completed his NEET exam preparation from this Academy and now he has taken admission in Gandhinagar GMERS Medical College. All thanks to team Samatva. **Dipak Dhamecha**

My son has completed his 11th–12th Science from the Samatva Academy of Science and is currently pursuing AI Engineering at SVNIT Surat. The entire staff at the academy works on the principle of “પિયારથી રૂવો ભવ:”. Parent-teacher meetings are held every two and a half months, and student counseling happens every week. I would like to thank the faculty of the academy for playing a very good role in my son's bright future. **Gohil Kanaiyalal**

I am Rajesh Rathod father of Harita Rajeshbhai Rathod here to express my Educational Experience with Samatva Academy of Science, the way of Teaching, Mentorship & followup regarding all the subjects through whole 2 years was awesome. All the faculties & staff are dedicate towards the whole curriculum of 11 & 12th Science, hard working teaching towards students & provide best guidance for Student's career. We all are too much satisfied with the Academy and Special thanks & Gratitude to Chetansir, Gopalsir & entire team of Samatva Academy of Science. My daughter got an admission in DA-IICT at Gandhinagar and accomplished her goal. **Rajesh A. Rathod & Kinnari R. Rathod**

My son has completed his 11th–12th Science from the Samatva Academy of Science and is currently pursuing AI Engineering at SVNIT Surat. The entire staff at the academy works on the principle of “પિયારથી રૂવો ભવ:”. Parent-teacher meetings are held every two and a half months, and student counseling happens every week. I would like to thank the faculty of the academy for playing a very good role in my son's bright future. **Vipul Vadher**

I, Mukesh Kalena, work as a farm labourer to support my family. After my son's admission to the Samatva Academy of Science, I was completely relaxed. Even when Piyush used to come home only on vacation, he used to say, Don't worry about me; teachers at my academy take care of all my needs, and today I can proudly say that my son is studying MBBS at the best medical college in India (AIIMS Jodhpur). I am thankful to Samatva for this. **Mukesh Kalena**

Jaydeepbhai Parmar
H.O.D. Academic

Hetal Tank
Head Counsellor

From The Student **Management Desk**

Why **Counseling** Is An Essential Part Of Cracking **JEE-NEET**

Class 11 Science is the main and first step in the successful career of any student. During these two years, the student works hard day and night to make himself successful. Realizing the seriousness of this, Team Samatva becomes the main support system for the student and stays with them. Student at the center of the entire management system. In the full-day curriculum, the goal of Samatva is to give the students their best performance by studying freely, through reading, and doubt discussion with the faculty. The entire management team is working in such a way that every personal matter of the student is taken care of and his questions are solved accurately. The Samatva system is working in coordination with the students, parents, and faculties, considering teacher-student co-living as the foundation. Samatva means equality. Our goal is to imbibe this mantra and nurture every student with the same spirit, not only in studies but also morally and to achieve success in life.

11th and 12th Science is a two-year journey in which students have to work hard for exams like JEE and NEET. In the round of tests taken in the academy for these exams, when the students do not get marks despite hard work, it brings disbelief in himself. Counselling removes the fear and stress that arise while giving the paper. How to get more marks in one test after another is explained by setting a goal through counselling. Confidence can be built in them that they are the best, and the exact result can be reached by continuing to work harder. What children cannot tell their parents or teachers, they can tell the counsellor and the counsellor helps them overcome their difficulties and reach their goals.

Hostel

Lunch

Transportation

Dear students and parents.

In today's modern world, with education, it is very important to understand the environment in which children are brought up. It is necessary that other facilities for children's education are conducive, which leads to the all-round development of children. Children like education only when they feel at home when they come to the premises of the academy, and this is possible only when the management of the institution considers the children at the center. Samatva Academy of Science is an institution with such a goal that the student is always at the center. In today's modern era, the education system of children also needs to be very modern. Along with this, the environment of the institution also plays a very important role in developing the skills of the children.

The entire management staff of Samatva Academy of Sciences is committed to providing all the facilities available to the student throughout the day, such as food, transportation, night reading, all the facilities related to entertainment in the hostel, and solving every confusion of the student as a parent.
